CAREER OBJECTIVE

B.Tech graduate in Artificial Intelligence and Data Science with foundational knowledge of SQL, Python, and data visualization gained through academic projects and internships. Familiar with exploratory data analysis and data cleaning using Pandas, NumPy, and Matplotlib. Seeking an entry-level Data Analyst role to build on this foundation and grow as a data-driven problem solver.

EDUCATION

B.Tech., Artificial Intelligence and Data Science *2022 – 2026*

Dhirajlal Gandhi College of Technology, Salem, Tamil Nadu | CGPA: 8.28 / 10

HSC & SSLC — Model School Pennagaram @ Chinnampalli

HSC: 78.5% 2021 – 2022 | SSLC: 89.6% 2019 – 2020

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Database:** MySQL (Joins, Aggregations, Window Functions, Stored Procedures, Triggers, Transactions)
- **Data Analysis:** Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Data Visualization
- **Statistics & Analytics:** Descriptive & Inferential Statistics, Probability, Covariance, Correlation
- **Libraries and Tools:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Power BI, Microsoft Excel, Streamlit, Jupyter Notebook, Google Colab, VS Code, PyCharm, Git/GitHub

PROJECTS

Banking Transaction Database *MySQL, GitHub*

- Designed a 7-table relational MySQL schema and wrote analytical queries using window functions and conditional aggregation to report on transaction and account activity.
- Built an atomic fund-transfer stored procedure with row-level locking and audit-logging triggers to ensure data integrity.

Crop Yield Predictor *Streamlit, Pandas*

- Built an interactive Streamlit app that predicts crop yield from user-input data, using Pandas for data cleaning and preprocessing.

INTERNSHIP EXPERIENCE

Data Analytics with AI — TAP Academy ***June 2026 – Present***

- Training in Python fundamentals (data types, functions, loops) to support data analysis and AI projects.

AI/ML Intern — Apex Seekers ***July 2025 – August 2025***

- Built and deployed beginner-level ML projects on Streamlit Community Cloud using NumPy, Pandas, Matplotlib, and Scikit-learn.
- Applied data preprocessing and model evaluation techniques in Python to validate model performance.

Data Analytics using Python Intern — Mikrosun Technology ***August 2024 – September 2024***

- Cleaned and analyzed datasets with Pandas and NumPy to extract insights for data-driven decisions.
- Built Matplotlib visualizations to present trends and findings in reports.

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- NPTEL – Design Thinking – A Primer
- Generative AI for Everyone — DeepLearning.AI (Coursera)
- Python for Data Science, AI & Development — IBM (Coursera)
